HI, I'M JAKE

and I'm a **software developer** seeking a position where I can utilize my technical skill set to support business needs and solve interesting challenges. I enjoy working on robust web applications, and will also bring the breadth of my operational background and skills to the table.

EDUCATION

University Of Texas, Austin Bootcamp

Full-Stack Software Development   *November 2023*

McMurry University

B.SC. PHYSICS- Concentration in Mechanical and Civil Engineering   *May 2015*

TECHNOLOGIES

- API, Node, Express, MySQL Sequilize, MongoDB, Mongoose, REST, GraphQL
- HTML, CSS, Javascript, JQuery, responsive design, ReactJS, Bootstrap
- Database Software (Oracle Primavera, Solid Works)

EXPERIENCE

RealScale | Austin, TX

VP of Operations   *November 2022 – Present*

Transaction Coordinator   *April 2021 – November 2022*

Managed transaction coordinators, resolved technical and customer issues, facilitated customer onboarding, coordinated platform updates, and handled billing with sales tracking.

HENECO Engineering & Consulting, LLC | Houston, TX

Project Coordinator   *January 2020– June 2020*

Engineering Associate   *October 2019 – January 2020*

Led company-wide project database creation and maintenance. Authored solar PV technical specs for major clients. Contributed to pipeline decommissioning and Shell New Energies projects. Managed client updates, weekly assessments, and project communications for efficiency.

Texas Rock Gym | Houston, TX

Lead Coach/Route Setter   *June 2017 – December 2019*
